| | | Communication Services | 2.2% |
| | | Cash, Money Market and Other | |
| | | Net Assets | 1.8% |

How risky is it?

The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

NBI has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. This rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the Risk section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the money you invest.

How has the fund performed?

This section tells you how Series T5 units of the fund have performed over the past 8 years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

This chart shows how Series T5 units of the fund performed in each of the past 8 years. The fund dropped in value in 3 of the 8 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series T5 units of the fund in a 3-month period over the past 8 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

| | Return | 3 months ending | If you invested \$1,000 at the beginning of the period |
|--------------|--------|------------------|--|
| Best Return | 12.9% | January 31, 2021 | Your investment would rise to \$1,129. |
| Worst return | -18.4% | March 31, 2020 | Your investment would drop to \$816. |

Average return

The annual compounded return of Series T5 units of the fund was 5.24% since its inception. If you had invested \$1,000 in this series since inception, your investment would now be worth \$1,584.

Who is this fund for?

Investors who:

- are looking to invest for the long term (at least five years);
- wish to add a Canadian equity fund to their portfolio.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan (RRSP) or a Tax-Free Savings Account (TFSA).

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T5 units of the fund. The fees and expenses – including any commissions – can vary among series of the fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales Charges

Only the initial sales charge option is now offered. The purchase options with deferred sales charge or low load sales charge are no longer offered except in case of switches described in the simplified prospectus. For current unitholders, the deferred charges remain payable upon redemption in accordance with the terms and conditions set out at the time of the purchase.

How much does it cost? (cont'd)

| Sales charge option | What you pay | | How it works |
|----------------------|----------------------------|------------------------------|--|
| | In percent (%) | In dollars (\$) | |
| Initial sales charge | 0% of the amount you buy | \$0 on every \$1,000 you buy | <ul style="list-style-type: none"> No charges when you purchase your units under initial sales charge option. Your representative's firm may charge you a service fee. You negotiate these fees with your representative. |
| Low sales charge | If you sell within: | | <ul style="list-style-type: none"> We pay your representative's firm a commission equal to 2.5% of the amount you invest. You do not pay any fee unless you redeem your units within three years of their purchase. The redemption fees are based on the initial cost of your units and the amount of time you hold them. The redemption fees are at a fixed rate. They are deducted from the value of the units sold and goes to NBI. There are no redemption fees when you switch units for units of another NBI Fund bought under the low sales charge option. The low sales charge schedule will be based on the date that the original units were purchased. |
| | 1 year of buying | 3.0% | |
| | 2 years of buying | 2.5% | |
| | 3 years of buying | 2.0% | |
| | After 3 years | 0% | |

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns. As of June 30, 2023, the fund's expenses were 2.13% of its value. This equals \$21.30 for every \$1,000 invested.

| | Annual rate (as a % of the fund's value) |
|--|--|
| Management expense ratio (MER) This is the total of the fund's management fee (including the trailing commission) and operating expenses (including fixed rate administration fee). NBI waived some of the fund's expenses. If it had not done so, the MER would have been higher. | 2.12% |
| Trading expense ratio (TER) These are the fund's trading costs. | 0.01% |
| Fund Expenses | 2.13% |

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and their firm provide to you.

NBI pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

| Sales charge option | Amount of trailing commission | |
|----------------------|---|---|
| | In percent (%) | In dollars (\$) |
| Initial sales charge | Up to 1.00% of the value of your investment each year. | Maximum of \$10.00 each year on every \$1,000 invested. |
| Low sales charge | Up to 0.50% of the value of your investment each year within the first three years. | Maximum of \$5.00 each year on every \$1,000 invested. |
| | Up to 1.00% of the value of your investment each year for the following years. | Maximum of \$10.00 each year on every \$1,000 invested. |

3. Other fees

You may have to pay other fees when you buy, hold, sell, switch or convert units of the fund.

| Fee | What you pay |
|------------------------|---|
| Short-term trading fee | 2% of the value of the units you redeem or switch within 90 days of purchase may be charged by NBI. This fee goes to the fund. |
| Switch fee | You do not pay any fees when you switch your units in the same series (under the same purchase option) of another fund. If you bought Series T5 units in the initial fund under the low sales charge option, fees will be payable, if applicable, when you redeem the units of the new fund, but based on the date on which you purchased the units of the initial fund. Your representative's firm may charge you a fee. |
| Conversion fee | You do not pay any fees when you convert your units from one series of a fund into units of another series of the same fund through NBI except applicable redemption fees, if you convert units from Series T5 under the low sales charge option into units of another series before the end of your calendar of low sales charges. |

What if I change my mind?

Under the securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus or Fund Facts document; or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact your representative or NBI for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
